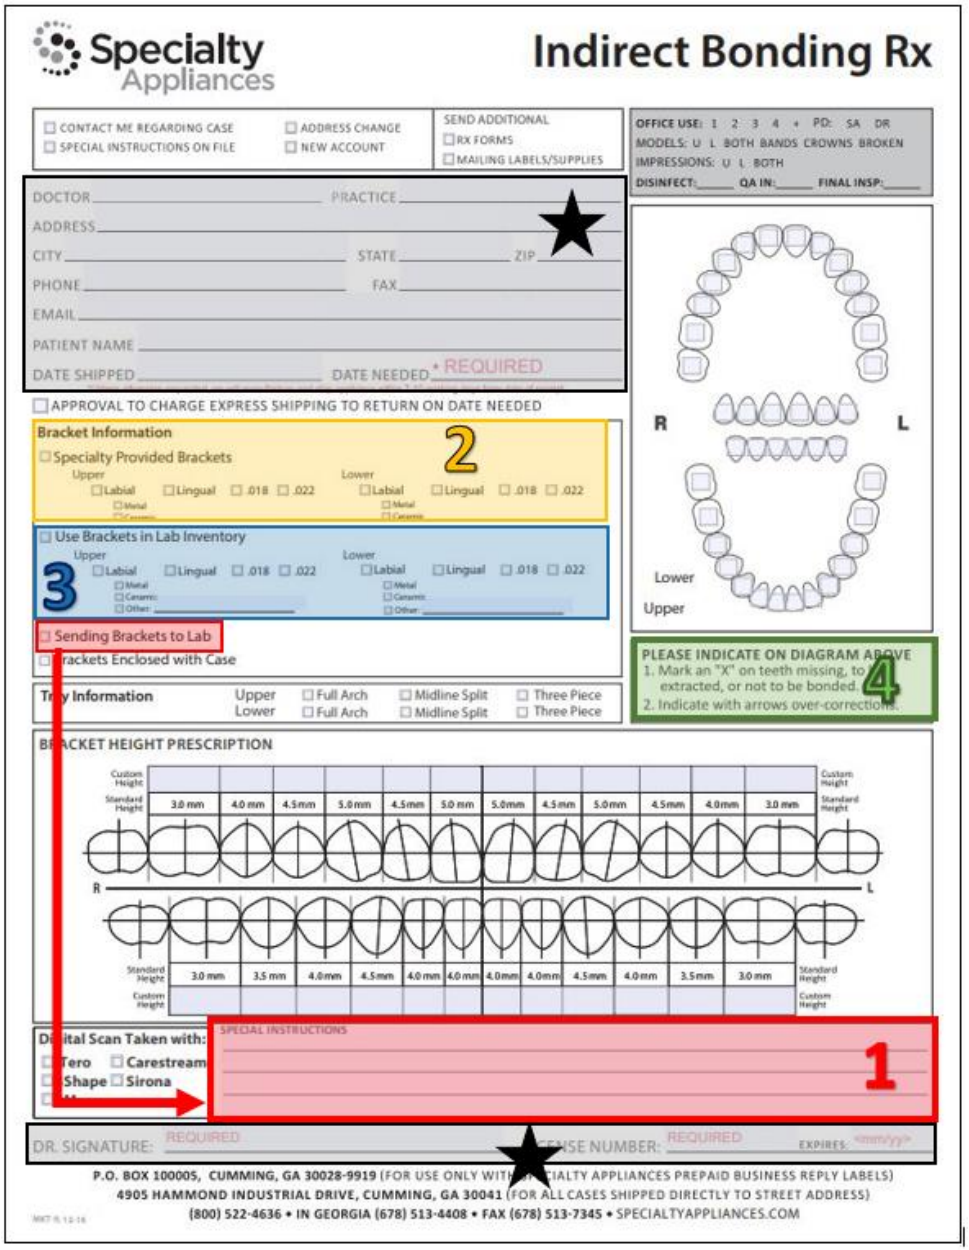
Instructions for completing an Indirect Bonding Rx:



01 For digital cases, if brackets will be mailed to us, please indicate that in these sections.

02 If Specialty Appliances is to provide brackets, please indicate that here and be sure to specify whether the brackets should be ceramic or metal.

03 We do offer to keep an inventory of our customers' brackets here at the lab. If brackets from an established inventory are to be used, be sure to specify the type of bracket that we should use from your inventory.

04 Specify which teeth (if any) we should **NOT** bond.

★ Please fill out the general information section completely to ensure that your order will be processed correctly and efficiently.

Also, the doctor's signature, license number, and license number expiration date are required on all prescription sheets! If sending a digital Rx, this section can be completed digitally!
